Subject: RE: EELs

Per our phone conversation earlier today, I will make the arrangements for a meeting to discuss. The Product Manager and either Selma or myself will come to your office so that you have the opportunity to include other staff members in the discussion.

Dana Lance is the EELs Product Manager. You've spoken with Dana on multiple occasions. She is in the process of completing her methods and procedures that will be shared with you at the meeting.

I look forward to our next chance to meet.

Peggy Beata

Peggy,

When would be a convenient time to go over this information and process?

Eric,

We will work with you to insure you are in a position to order EELs when the Tariff is filed. Peggy Beata will run point for SBC/Ameritech and insure the appropriate people are engaged.

Thomas R. Harvey
 Vice President - National & Regional CLEC Accounts

Subject: EELs

Thomas,

This email is to follow up on a voice mail I had left you last week in regards to EELs. As you know, the ICC ruled that collocation is not required to provision and install new EELs. Globalcom was one of the parties that made the argument to the ICC that for a CLEC who has elected to deploy a switch in Lata 358, like Globalcom, rather than collocation, then we are entitled to access new EELs. I understand that the recent order from the commission states that Ameritech must file a new tariff within 30 days of the final order, and even though we are entitled to order new EELs right now under the IL telco act and TA96, I do not anticipate that Ameritech will accept our orders until the tariff is filed (I do not think that Ameritech position on this is legal). However, we want to be 100% ready to submit new orders on the day that Ameritech files the new tariff. Therefore, what do we need to do, who do we need to talk to begin ordering EELs. Most specifically what is the process for ordering these circuits. I would like to arrange a meeting with Ameritech to finalize the ordering process. We are ready to begin the ordering on the day the tariff is filed.
